

PRODUCT SPECIFICATION

REF 2596 PROTECTION KIT

1 GENERAL PRODUCT DESCRIPTION

Description

The Cederroth Protection Kit is a procedure pack intended to be used as an aid in assistance when giving mouth-to-mouth resuscitation to an injured person. It contains tissues for hand cleansing, single use protective gloves and a breathing mask.

Cederroth's breathing mask is intended to work as a barrier and limit the contact between the resuscitator and the injured person's blood, secrete, vomit and other body fluids. The breathing mask consists of a one-way valve (green upper part, red lower part and a membrane) and a plastic sheet with graphic instructions printed on it.

CE-labelled.

Storage information

Dry storage in room temperature. For maximum protection, keep in original package until use.
